The Green Flag

Our green flag has to be renewed. Mrs Smith has sent off the paper work and we may have a man coming to look round our school to see if we've kept up our eco skills. If we have we will keep the flag for another three years! So far we are doing very well so keep it up!

The Foil Competition

As you all know the foil competition has ended! Well done to everyone who brought in all that foil. It was a great success! The overall winner turned out to be Senior 6 with a whopping 9.6kg of foil. The runners up are Reception. They must have been eating a lot of mince pies over Christmas! Well done to everyone!

Millie

Lights

We have been doing really well with all our eco targets. There is just one thing that people are forgetting though! Some of the lights are being left on at lunchtime and break. So the Eco Prefects have started doing a light check with all the classrooms, the library and the I.C.T room. So far there have only been a few lights left on but let's try and get it to none!

Travel Plan

As a country we are trying to cut down our carbon footprint. So at school we have decided to do a travel plan. When you come into school there is a book that you can fill in to see whether you have walked, shared a lift, driven, cycled or come in the school bus.
